

GIS Day Challenge – **TODAY!**

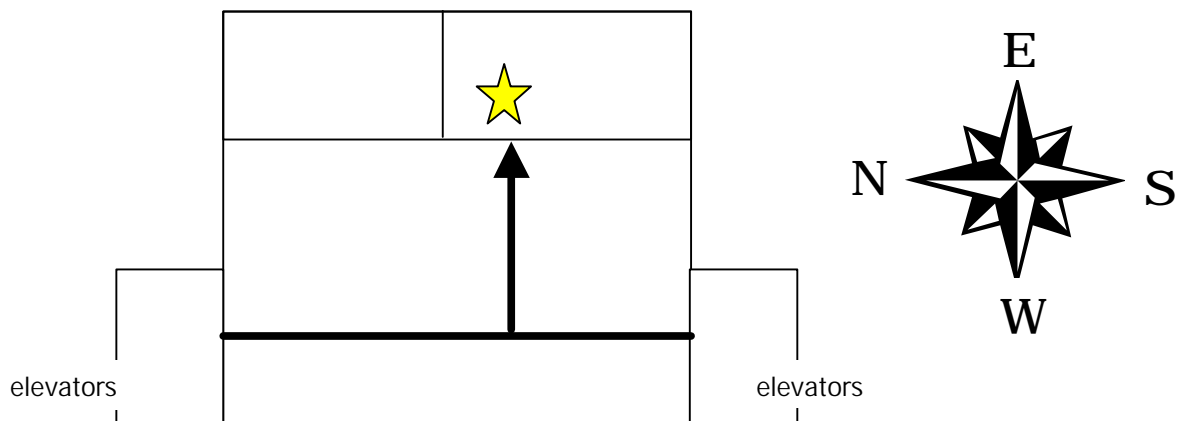

Rules:

To educate you a little bit about Geographic Information Systems (GIS), posters have been hidden throughout the building. Your mission is to find these posters from the provided clues. Collect clues 2 – 8 and bring them with you to your final location in order to collect your prize.

Clue 1:

This floor contains the office that produces the Mobile Weekly. Using the map below, visit the marked office and gather your next clue.

What is GIS Day?

GIS Day is a grassroots event that formalizes the practice of geographic information system (GIS) users and vendors opening their doors to schools, businesses, and the general public to showcase real-world applications of this important technology. The Operations Division's Spatial Data Branch is celebrating GIS Day once again. This year, your mission, if you choose to accept it, is to take the GIS Challenge! If you have 15 minutes to spare this **Wednesday, November 19**, pick up your "Challenge" game piece in the elevators or from our website – <http://gis.sam.usace.army.mil>.

Successful participants of the "Challenge" will be awarded with a worthy prize. So, take a few minutes out of your Wednesday to see who we are, what we are about and maybe how we can help you in the future. See you Wednesday!
